Do You Need Renter's Insurance?

Renters insurance assures you that you're protected against the damage or loss of personal property, when you rent. Your landlord may have insurance that protects the physical building in which you reside, but this will NOT cover YOUR personal property. In determining whether or not you need renters insurance, a few questions you need to ask yourself are:

- How much would it cost to replace my personal property if it were damaged or stolen?
- Can I afford to replace it?
- If the building you were living in was damaged and you needed somewhere to stay could you afford a hotel?

Depending on your answer, renters insurance may be an easy choice providing you with the protection you need. It is reassuring to have the peace of mind that comes from being protected.

Things to consider before purchasing rental insurance:

- How much coverage
- Deductible
- Actual cash value
- Replacement cost

Did You Know?

- To keep potatoes from budding, place an apple in the bag with the potatoes.
- If you accidentally over salt a dish while it's still cooking, drop in a peeled potato and it will absorb the excess salt for an instant "fix-me-up".
- Wrap celery in aluminum foil when putting in the refrigerator and it will keep for weeks.
- Peroxide will take blood out of clothing.
